## Federal Program Disclosures

July 1, 2010 – June 30, 2011 Award Year

This document is intended to provide information about West Coast Ultrasound Institute's programs, pursuant to the Code of Federal Regulations. West Coast Ultrasound Institute is institutionally accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC) and approved to operate in California by the Bureau for Private Postsecondary Education (BPPE). For those programs that also carry Programmatic Accreditation or Approval, the appropriate agency is listed with that program's information below.

### DEFINITIONS

- On-time Completion Rate (as defined in 34 CFR 668.6 (c)). This number is based on the students who graduated during the award year, and did so within "normal time." Normal time is based on the published length of the program in the catalog. This rate is not reflective of the overall completion rate of the program.
- Tuition and Fees includes the tuition and fees charged for the program during the award year ending on June 30, 2010; the total includes books and supplies. Current tuition and costs can be found in the School Catalog.
- Placement Rate is based on the calculation required by West Coast Ultrasound Institute's accrediting body, ACCSC. ACCSC defines placement rates as the number of graduates who complete within 150% of the program length during the reporting period who were available for employment and found a job in their field of training, divided by the total number of graduates available for employment.
- Median Loan Debt is the median debt incurred through Federal loans, private loans and institutional financing sources by students who complete the program.
